

C.V of dr. Hakeem Ghani Hassan

Full Name: dr. Hakeem Ghani Hassan Al-Hamammi

Place and Date of birth: Thi-Qar – Shatrah- 1964

Gender: Male

Marital Status: Married and have four children

Academic achievement: Biology-College of Science/ Baghdad university.

Specialization: Clinical Immunology and Virology-College of Medicine/ Al-Nahrain University

Mobile: 07810013630

E-mail: alhamamy201567@gmail.com
alihakeem46@yahoo.com

ORCID: <https://orcid.org/0000-0003-3989-6265>

ResearchGate: <https://www.researchgate.net/profile/Hakeem-Hassan-3>

Web of Science: <https://www.webofscience.com/wos/author/record/HS-9427-2023>

Education

BSc. Biology: University of Baghdad / College of Science (2002)

H.Diploma Pathological analysis technology : Middle Technical University/College of Health and Medical Technology (2007)

MSc. Pathological analysis technology: Middle Technical University/College of Health and Medical Technology (2014)

Ph.D Medical Microbiology-Immunology: Al-Nahrain University/Faculty of Medicine (2022)

Publications

1-Evaluation of possible association of interferon-induced helicase (IFIH1) gene polymorphism with type one diabetes mellitus in a sample of Iraqi children

<https://www.sciencedirect.com/science/article/abs/pii/S2773044122000389>

2-Association Of Anti-Coxsackievirus-B IgG With IFN- α , IFN- β , IL-6 and TNF- α in Children with Type 1 Diabetes.

<https://jnsbm.org/manuscript/index.php/submissions/issue/view/12>

3-Association of Anti-Coxsackie Virus-B IgG with Autoantibodies Related to Type 1 Diabetes Mellitus

<https://www.iasj.net/iasj/article/238480>

4-Effects of macromolecular adjuvants on the duration of prilocaine. Experimental studies on the effect of variations of viscosity and sodium content and of inclusion of adrenaline

<https://pubmed.ncbi.nlm.nih.gov/2458007/>

5-PHENOTYPIC & MOLECULAR CHARACTERIZATION OF AMPC B-LACTAMASES AMONG ESCHERICHIA COLI, KLEBSIELLA SPP. & ENTEROBACTER SPP. ISOLATED FROM AL-HUSSEIN TEACHING HOSPITAL IN THI-QAR GOVERNORATE

6-On the relative potency of amino-amide local anaesthetics in vivo

<https://pubmed.ncbi.nlm.nih.gov/7941946/>

7-Duration of experimental nerve block by combinations of local anesthetic agents

<https://pubmed.ncbi.nlm.nih.gov/8424299/>

8-Epinephrine as an adjuvant to amino-amide local anesthetics does not prolong their duration of action in infraorbital nerve block in the rat

<https://pubmed.ncbi.nlm.nih.gov/1632160/>

Experiences and Skills:

- 1- Director of the Laboratory Division / Dhi Qar Health Department 2005-2006
- 2- Director of the Laboratory Division / Al-Hussein Teaching Hospital for the periods 2002-2005, 2010-2011 and 2021-2022
- 3- Director of the qualifying laboratory course for graduates of the College of Sciences and Pharmacists for the years 2010-2017
- 4- Lecturer in the Dhi Qar Health Department/Training and Development Department
- 5- Scientific evaluator of research in the Dhi Qar Health Department/Training and Development Department
- 6- Lecturer in the Dhi Qar Health Department/Technical Affairs Department
- 7- External lecturer at the Technical Institute/Nasiriyah 2003-2004, 2004-2005, 2005-2006, 2014-2015, 2015-2016.
- 8- External lecturer at the College of Science / Dhi Qar University 2014-2015
- 9- External lecturer at Mazaya University College - Laboratory Department 2014-2015 and 2015-2016.
- 10- External lecturer at Yarmouk University - Laboratory Department 2019-2020
- 11-Al-Ayen Iraqi University, College of Health and Medical Technologies: 2023 until now.

السيرة الذاتية للدكتور حكيم غنى حسن

الاسم الكامل: د. حكيم غنى حسن الحمامي

مكان وتاريخ الميلاد: ذي قار – الشطرة – 1964

الجنس: ذكر

الحالة الاجتماعية: متزوج وأب لأربعة أبناء

التحصيل الدراسي الاساسي: علوم حياة من كلية العلوم / جامعة بغداد.

التخصص الدقيق: علم المناعة السريرية والفيروسات-من كلية الطب/جامعة النهرين

جوال: 07810013630

E-mail: alhamamy201567@gmail.com

alihakeem46@yahoo.com

ORCID: <https://orcid.org/0000-0003-3989-6265>
